# FIRST STEPS

Workshop for parents with children from birth to 4 years old and couples planning to become parents

One of the purposes of early education is to turn all the situations of the family life into amazing moments of learning. Many studies show that adequate early stimulation is the most efficient tool to obtain a complete personal development, in the field of intelligence, psychomotor activity and behaviour.

This workshop will help parents discover the main pedagogical frameworks and the basic habits that infants should acquire.

Topics:

1. Basic Building Blocks
2. Individualised Attention and Parental Love
3. Love and Discipline
4. Unity and Understanding in Marriage
5. Growing up with Brothers and Sisters

Calendar of general sessions:

-  11 November 2023
-  20 January 2024
-  2 March 2024
-  21 April 2024

## CASE METHOD

Through the case study, the parents calmly immerse themselves in real situations of married and family life in order to find a solution in mutual consultation. In this way, they already acquire a certain experience in order to react resolutely later, when the incidents actually occur. This method is **interactive**. To enrich the content of the sessions, participants are asked to give their opinion, exchange thoughts, ask questions, give examples, etc.

**TEAM SESSIONS:** Near your place of residence or online. Teams decide date, time and location.

**GENERAL SESSIONS:** First 3 online between 8:30-10:00 pm. Last 2 in Zonnewende (Moergestel), followed by a family BBQ.

**COSTS:** €120 per couple for the complete programme (aid available) including babysitting during the in-person sessions and family day.

**REGISTER BEFORE 14 OCTOBER 2023**
